

As an Indiana citizen, I wish to speak out against proceeding 02-278. I am satisfied with Indiana's Do Not Call Laws and feel that telemarketing calls should be considered as telephone harassment and should be treated as such. I feel that any preemption from federal law would diminish the effectiveness of the Do Not Call laws of Indiana and with that, affect our rights as citizens to our privacy. With that I as well as other Indiana citizens do not want our law preempted.
